#### **CARE & MAINTENANCE**

Please refer to the Cladding care and Maintenance guidelines at www.wrg.ie for full care guidelines for your Cladding.

General Cleaning: Keep it clean and your Whiteriver Composite Cladding will reward you with years of low maintenance pleasure. Periodic cleaning of Whiteriver Composite Cladding is suggested, even if it appears clean, as it is important to prevent the build-up of pollen / debris that can cause mould. If unsure about the product being used to clean / remove stains, it is recommended that you test a small area in an inconspicuous place to determine if the product will cause any unwanted discolouration. Below is a more detailed instructions for taking care of your Cladding.

#### **DIRT, GRIME AND DEBRIS**

Whiteriver recommend cleaning on a regular basis in order to remove debris, pollen, and dirt. Surface debris should be sprayed off with a hose. Normally all you need is a soft non-metal brush, warm water and a mild household cleaner such as liquid soap or WOCA Exterior Cleaner. Scrubbing in the direction of the grain is best to remove dirt and debris. Thoroughly rinse off with a garden hose. If there is heavier dirt, you can use a low bar pressure washer with wide fan tips at a safe distance using a maximum pressure of 1500psi at a minimum distance of 300mm (12"). Always wash in the direction of the grain along the length of the board.

#### **MOULD, MILDEW, ALGAE ETC**

Mould and mildew are very common and occurs periodically in everyday environments. Therefore, surface mould and mildew can appear on the surface if decaying organic materials such as, but not limited to, wood, leaf and pollen are present along with elevated temperatures, air and water. Therefore, we can only minimise the occurrence by removing these decaying organic materials as quick as possible. If mould and mildew are present use warm soapy water or WOCA Exterior Cleaner and a soft non-metal scrub brush to clean. It will help avoid staining and minimise the growth of mould and mildew.

#### **INSTALLATION & WARRANTY**

All Whiteriver Cladding must be installed by a professional installer who has the necessary skills and will take each site circumstance into consideration. Our warranty is only valid on products which have been installed as per our installation instructions. (Available on www.wrg.ie)
